

Monero-X Onepaper

Mining-Based Reward Ecosystem with Referral Incentives

1. Introduction

Monero-X is a mining-based earning ecosystem built to provide users with sustainable daily rewards, transparent capping rules, and referral-based incentives. The system combines mining rewards, referral bonuses, and wallet structures to ensure long-term engagement and growth for the community.

2. Core Concept

Every participant joins Monero-X by making a minimum investment. Investments are locked, and rewards are distributed daily into two distinct wallets: Earnings Balance and Exchange Balance. This split ensures sustainability while maintaining liquidity for withdrawals.

3. Wallet Structure

Wallet	Description
Investment Wallet	Locked capital
Earnings Balance	Non-withdrawable credits, convertible into Exchange Balance
Exchange Balance	Withdrawable wallet for daily earnings & bonuses
Withdrawable Wallet	Final wallet from which users can withdraw funds

4. Investment Plans & Rewards

For \$1,000 Investment:

- Locked Capital: \$1,000
- Immediate Credit: \$500 in Earnings Balance
- Daily Mining Rewards: \$8 split 50:50
- \$4 → Exchange Balance
- \$4 → Earnings Balance
- Minimum Withdrawal: \$100

For \$2,000 Investment:

- Locked Capital: \$2,000
- Immediate Credit: \$1,000 in Earnings Balance
- Daily Mining Rewards: \$16 split 50:50
- \$8 → Exchange Balance
- \$8 → Earnings Balance
- Minimum Withdrawal: \$200

5. Referral Program

The referral system encourages organic community expansion while rewarding contributors.

- Direct Referral (A → B with \$1,000): B gets \$500 in Earnings Balance, A gets \$200 converted to Exchange and \$100 added again to Earnings. New Member B gets \$1,000 locked + \$500 Earnings + \$100 Exchange bonus.
- Higher Investment Referral (B → C with \$2,000): C gets \$1000 in Earnings Balance, B gets \$400 converted to Exchange and \$200 to Earnings. New Member C gets \$2,000 locked + \$1,000 Earnings + \$200 Exchange bonus.

6. Capping System

To ensure fairness and prevent over-extraction: maximum returns are 3x the invested amount (including capital). Once capping is reached, the Earnings Balance resets to 0. To continue earning, users must top-up again.

7. Sustainability Model

The system is designed with a 50:50 split between withdrawable and non-withdrawable balances. Referral conversions ensure circulation of both liquid and locked funds. The capping mechanism ensures long-term sustainability.

8. Withdrawals

- Withdrawals are allowed from the Withdrawable Wallet only.
- Minimum Withdrawal Thresholds:
 - \$1,000 plans → \$100
 - \$2,000 plans → \$200

9. Roadmap

Phase 1	Launch of Monero-X ecosystem with wallet integrations
Phase 2	Expansion of referral & mining-based pools
Phase 3	Strategic partnerships with exchanges & merchants
Phase 4	Integration of Monero-X into decentralized finance ecosystems

Monero-X Matrix Plan Strategy

Level Name	Level	Team Requirement	Rewards	1000\$	2000\$
Genesis Seeker	1	5	200\$	10\$	20\$
Hash Guardian	2	30	500\$	12\$	24\$
Cipher Keeper	3	100	850\$	14\$	28\$
Ledger Bearer	4	220	2000\$	18\$	36\$
Block Forger	5	500	4000\$	24\$	48\$
Shard Explorer	6	1100	6100\$	30\$	60\$
Fusion Architect	7	2200	8000\$	35\$	74\$
Token Voyager	8	3500	10000\$	40\$	84\$
Quantum Pioneer	9	5000	13000\$	50\$	100\$
Apex Strategist	10	8500	16500\$	60\$	120\$
Catalyst Commander	11	11750	19000\$	72\$	144\$
Summit Chancellor	12	15000	22000\$	86\$	172\$
Nexus Sovereign	13	20000	25000\$	96\$	192\$
Crown Holder	14	25000	30000\$	100\$	200\$
Infinity Icon	15	30000	50000\$	110\$	220\$

Disclaimer: Participation in Monero-X involves financial risk. Please conduct thorough research before investing. This is not financial advice but an innovative mining-based earning ecosystem. About Monero: Monero is one of the most powerful cryptocurrencies of the future, offering unmatched privacy and security features to protect users and ensure untraceable transactions.
